Our design focus

Nothing is extraneous. Everything is carefully considered. And in the clean architectural lines and soft curves, you'll notice echoes from the world around us today; modern architecture, contemporary product design and interior design trends.

To ultimate functionality, our design team brings elegant simplicity, with an emphasis on the use of pure materials and sophisticated textures.

"We had in mind three key words: modern, distinctive and premium."

Thomas Johansson
Design Director,
Electrolux

Your creative freedom

Choose any combination from our Inspiration Range to best suit you, your home and the way you live. You'll know that everything will come together perfectly as part of an integrated family.

Your choices will do something else, too. They will complement your kitchen with understated style.

"The visual simplicity of the entire range is borne from a desire to challenge everything that's stood before; to redefine not reinvent."

Luca Comello
Design Project Manager,
Electrolux

Our professional experience

For 90 years, we've been supplying equipment to the world's most prestigious restaurants as well as professional laundries.

One in two chefs featured in the Michelin Guide in Europe use Electrolux equipment in their restaurant kitchens.

We're the only global brand with a full range of both professional and domestic kitchen appliances.

Brand leaders in professional appliances

Developed for professionals, now adapted for you.

Your new kitchen

Our unique know-how has gone into creating the Electrolux Inspiration Range.

Every leading appliance features an innovation first tested and developed with professionals.

A moving experience...
The Cube by Electrolux will be travelling around Europe. Places are limited to just 18 guests at each lunch and dinner sitting. To discover more or reserve a table, visit **www.electrolux.co.uk/cube**

Ultimate inspiration

The Cube by Electrolux combines exceptional culinary experiences against the backdrop of some of the most iconic views in the world. Recently appearing on top of historic European buildings in Brussels, Milan and Stockholm, we are delighted to announce that The Cube by Electrolux arrives in London on the roof of The Royal Festival Hall from 1st June until 30th September 2012.

From its enviable position on London's South Bank, the stunning design structure, created to represent Electrolux's Scandinavian heritage, provides guests with outstanding views over the Thames, including Westminster and the London Eye, which can be enjoyed from the chef's table and out on the rooftop terrace.

The Cube by Electrolux will play host to six of the UK's top Michelin star chefs who will create their own unique interactive dining experience that's never been seen before. The Cube by Electrolux can seat 18 guests around one table or accommodate a larger gathering for a less formal event. Guests can watch their meal being prepared for them by one of our Michelin star chefs in an open plan kitchen equipped with the new Electrolux Inspiration range alongside our professional equipment.

Complement your kitchen with understated style

Using modern, distinctive and premium design we deliver ultimate functionality and elegant simplicity. Always using pure materials to acheive sophisticated textures, and pure architectural lines.

Sustainability matters

Through innovation, Electrolux aims to set the standard for sustainability and lead the way in resource efficiency, water conservation and safety.

Dow Jones Sustainability Indexes
Member 2011/12

5 in a row
Electrolux has a strong track record in sustainable operations and is proud to be ranked among the world's sustainability leaders in the Dow Jones Sustainability (DJSI) World Index for the fifth consecutive year. DJSI World includes the 10% best-in-class economic, environmental and social performers among the world's 2,500 largest companies.

New technology is the key to improved energy consumption.

"Our focus on sustainability is core to Electrolux's business strategy. The development of water and energy efficient appliances is a result of our consumer insight, and helps us provide consumers with innovative and relevant products"
says Henrik Sundstrom, Vice President Group Sustainability Affairs in Electrolux

Electrolux Vac from the Sea.
Five vacuum cleaners were made from plastic waste collected from the world's oceans. The Vac from the Sea initiative was launched by Electrolux with the aim of raising awareness about ocean plastic waste and inspiring consumers and industry to increase recycling efforts.

Sector leader
In the Sustainability Yearbook 2012, Electrolux received three recognitions: as Sustainable Asset Management (SAM) Sector Leader, SAM Sector Mover and SAM Gold Class in Durable Household Products.

Ethical business

The Electrolux Sustainability Strategy focuses on four key issues: climate change, ethical business and safe workplaces, responsible sourcing and restructuring.

Cooking

Ovens

What's new

From touch control to food probes, discover a world of innovation. Here are some highlights from across our oven range.

A

-20%

Cut consumption
Our top ovens use 20% less energy than A class models.*

*20% more energy-efficient compared to the limit of energy efficiency class A (1,00 kWh) for large ovens (≥ 65 l) calculated according to EU Directive 2002/40/EC

Precise cooking
Simply set the required temperature and insert the FoodProbe into your food. The oven will do the rest, telling you when your dish is cooked just right.

Velvet close.
The sound of silence
Soft close door action.

20%

See if it's ready
20% larger oven door window.

Touch control

Move around the menu effortlessly using the touch control, with icon and text display for ease of use.

Cool to the touch
However hot inside, the oven door remains just 20° warmer than room temperature.

74L

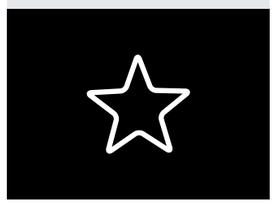
Freedom to create
Up to a large 74-litre capacity, with five flexible shelf positions.

Bake more in one go
InfiSpace™ tray is the biggest baking tray around.

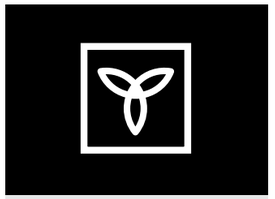
Smells delicious
Keep the air free of unpleasant odours with the odour filter, which oxidizes oven grease and fumes.

My way

Use the MyFavourite button for instant access to your well-loved cooking settings.



All lit up
Spot illumination perfectly lights up what's cooking, so you can check progress without the need to open the oven door.



Even cooking in any position

Powerful, uniform cooking with our UltraFanPlus system. Cooks everything evenly no matter where it is in the oven.

Ovens

Worth knowing

How innovation across our Inspiration Range helps you in the home.

+20% bigger
Our InfiSpace™ Tray is 20% bigger than standard so you can conjure up more tasty macaroons in one go.

InfiSpace™ Tray
43 x 34cm

Standard tray

The most flexible cooking space available
Advanced engineering has allowed us to increase the capacity by 25%, without increasing the external oven dimensions.

Standard capacity

Up to 74-litre InfiSpace™ capacity with a maximum of five shelf positions, giving you the flexibility to cook more dishes at the same time.

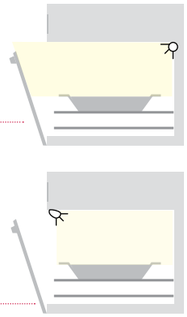
InfiSpace™ capacity

UltraFanPlus
Powerful, even cooking, wherever you place your dish. The larger fan cover size, with its enhanced design, circulates air more efficiently, for consistent results on every shelf. This allows you to cook even on multiple shelf levels at the same time.

Old

New: 1.5 times bigger for uniform cooking

See what's cooking
We've moved the spot illumination just behind the door so you can check on the progress of your dish at a glance, without opening the oven. And the angle of the light means that your food is flooded with light, not you.
Standard position



Inspiration range position

Great taste, every time
Our CombiSteam Deluxe ovens give you three, easy-to-use steam functions.

1. CrispSteam (25% steam + 75% hot air) creates mouth-watering tenderness inside and a wonderfully crisp and golden outside. Especially suitable for meat, poultry, bread and cakes.

2. SoftSteam (50% steam + 50% hot air) is ideal for reheating food so it tastes like it's been freshly cooked.

3. PureSteam (100% steam) is brilliant for fish, rice and tender vegetables.

CombiSteam Deluxe also bakes, roasts, grills and more.

Just add steam

Directly inspired by working with top chefs, who regularly combine steam with conventional heat to get the best results from their ingredients quicker.

Quarter Steam (CrispSteam)
Simply select the CrispSteam programme, to combine quarter-steam with heat to get mouthwatering tenderness inside with a crisp and golden outside.

Half Steam (SoftSteam)
Or choose the SoftSteam programme, using half-steam – ideal for reheating food so it tastes freshly cooked.

Full Steam (PureSteam)
Cooking with PureSteam, using 100% steam, is the best way to preserve food's natural flavour and goodness – perfect for fish, fluffy rice and tender vegetables.

Heat
Bake, roast, grill.
Even slow cook.
The CombiSteam oven gives you unparalleled versatility.

CombiSteam™ Oven

EOB8741AOX

Inspiration design CombiSteam™ Deluxe.

Features

By combining steam cooking with a hot air function, you can delight your guests with healthy and tasty dishes that are juicy inside under a wonderful crust

Get the repertoire of a chef, without the hard work! This oven's touch screen with white display takes you intuitively through the menus straight to the right settings

Get the same level of insight as a professional chef with our food probe. Select how you want to cook your food, and the food probe will alert you when it's ready

- Steam cleaning programme leaves you with a professionally clean oven.
- Extra large 73 litre cavity and even cooking on 5 levels means that you can cook more at the same time
- Ultra Fan Plus- XL fan with new air-guide design for lower temperatures and quicker cooking times
- Velvet Closing™ soft close door that closes gently every time
- Front lamp that illuminates the entire cavity without dazzling
- Easy-insert shelf racks for quick and easy shelf or tray replacement
- 10% more energy-efficient than A-class ovens
- Additional Telescopic runner

Live big
in a small space

Compact doesn't have to mean compromise. It means you have the freedom to make any kitchen space work for you.

Even if space is at a premium, there's no reason to think you can't fit in everything you want.An Electrolux Compact oven, for example, can have all the big features of its full-sized sibling - including multifunctions, turbo-grill, CombiSteam or Combi-microwave – but in a smaller size. So you've got room in your kitchen plan for something else too. How about an Automatic Coffee Machine, or even an integrated LCD TV?

And for a real wow factor, group compact units together in a cluster, a column or a cool horizontal run.

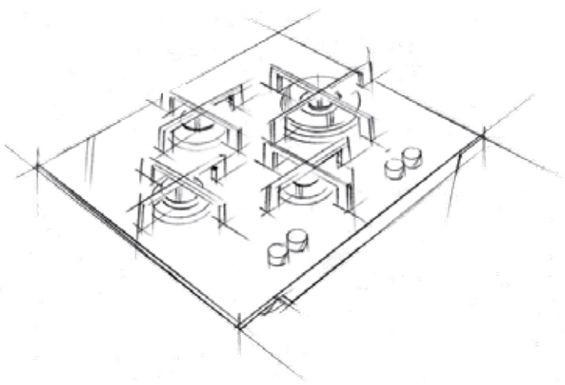
Gas hobs

What's new

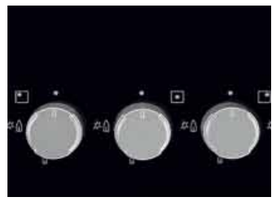
Greater flexibility, enhanced efficiency and easier cleaning. Cooking on a gas hob has never been better, as you can see from highlights across our range.



Create more

Use the largest pots and pans safely with Electrolux CrossCook. We've changed the way some gas burners are arranged to give you a much more flexible cooking area.

Cast iron pan supports
provide a robust and durable cooking base.



High quality control knobs with high heat resistance and durability.

One size fits all
Our 75cm gas hobs fit into the same space as standard 60cm hobs.

Burners
With a variety of different sized burners, from simmering to true wok cooking, the burners on our hobs cater for all types of high heat.

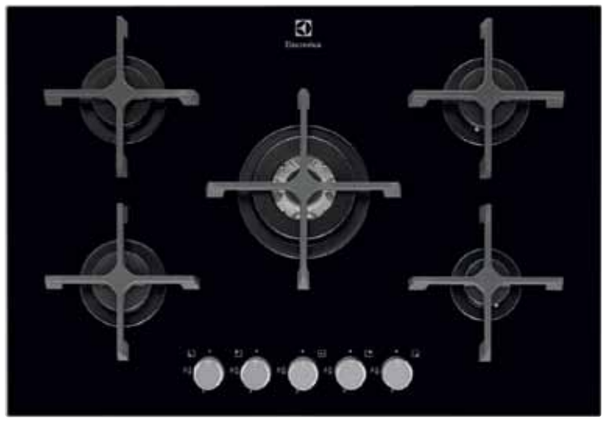
Cook in style

We have a range of gas hobs that feature black, glossy glass at the base rather than steel.
For all the benefits of cooking with gas, with a dash of panache.

70cm Gas on Glass Hob

EGT7353NOK

70cm wide Gas on Glass hob with front controls



Features

For a modern, premium look, choose this gas-on-glass hob. It combines the precision of cooking with gas, with the smooth style of ceramic glass

A variety of different sized burners great for boiling or simmering, also includes a triple crown burner giving intense heat for true wok cooking

- Cast-iron supports to provide a robust and durable cooking base
- Automatic hob ignition allows you to get started without delay
- Automatic gas cut-off - a practical solution for peace of mind

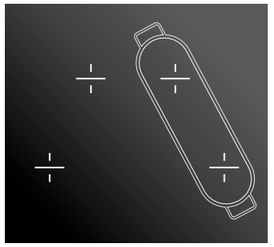
Electric hobs

What's new

Pure design goes further with near 'invisible' controls. Here's an array of stunning and practical features from across our hob range.



Infinite.
Break out of the circle
Spread your pots and pans across the Infinite hob's cooking surface for complete creative freedom.

STOP & GO

If the phone rings

Select Stop&Go, knowing that all your settings are saved and can easily be re-activated with the touch of a button.

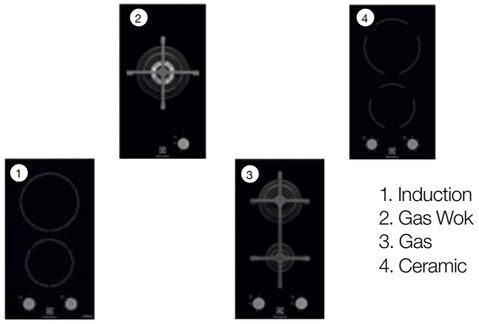
Direct Access Rotary
For instant temperature selection in just one touch, intuitive, seamless style with spectacular backlights.

Fish on the menu?
Place a fish kettle or any other long pan across two cooking zones, with our enhanced 'bridge' mode.

ECO

EcoTimer™
Make the most of free residual heat, reducing energy consumption even further.

Make a statement
Combine these modular hobs to build your own tailored mix of cooking methods - choose from gas, induction and ceramic.



1. Induction
2. Gas Wok
3. Gas
4. Ceramic

CleverHeat™

Using a 3-level system, CleverHeat™ shows you how hot the zone is once you have switched it off, so you can make smart use of the residual heat.

Elegantly simple
The exclusive white LED display on black is a stunning industry first. Available on selected models.

Hide and reveal

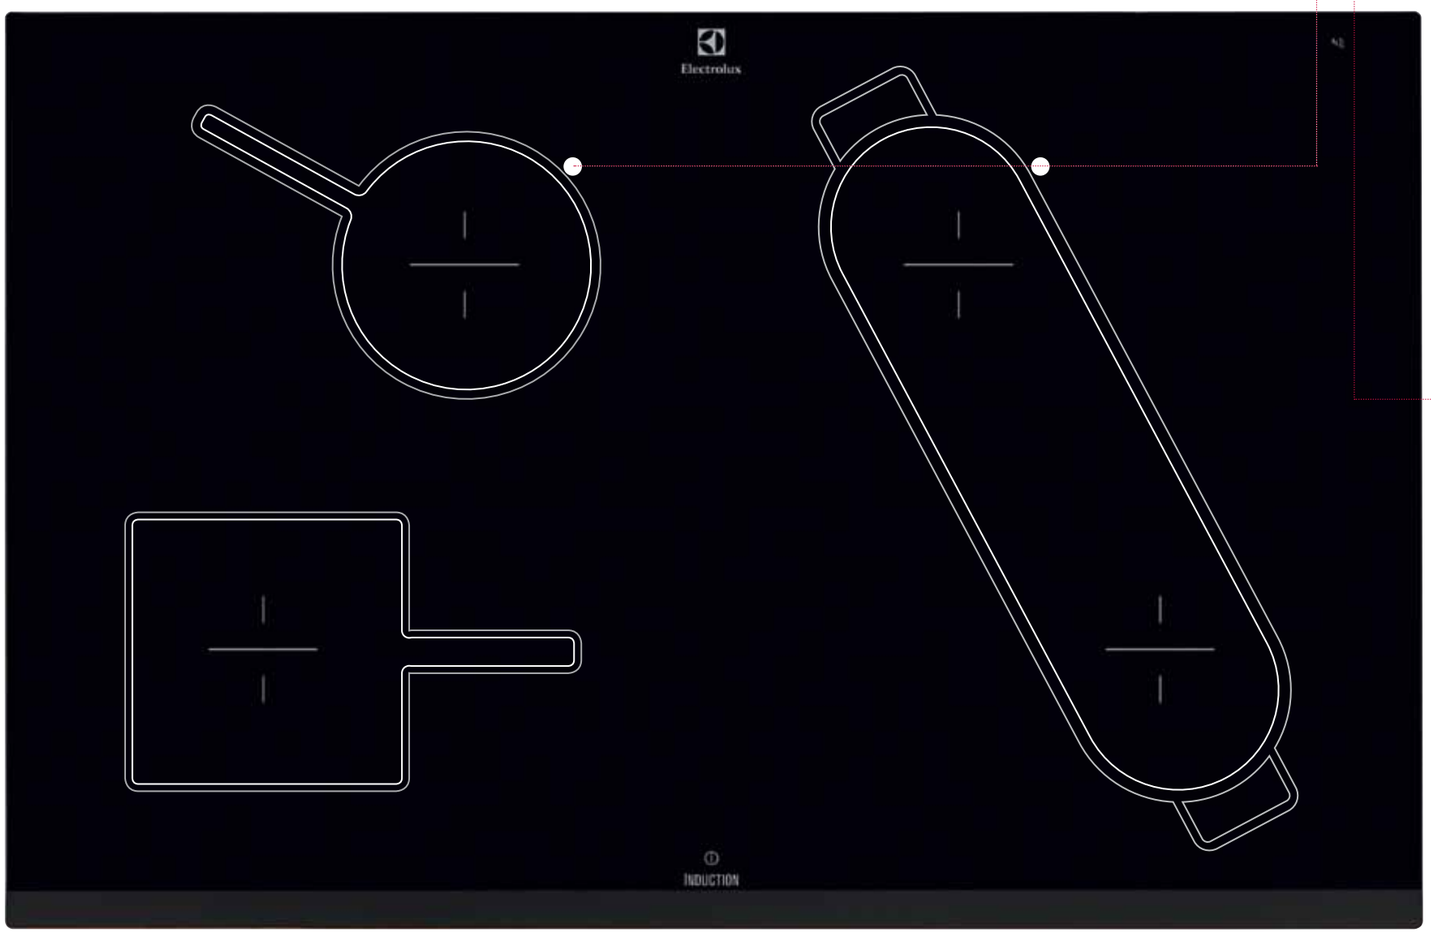
Not in use? Our InfinitePure Hob hides the controls until you need them next. All you see is a subtle power button and pure glass.

Wok induction cradle model no. Infi-wok

Electric Hobs

Worth knowing

What innovation across our Inspiration Range helps you in the home?



Infinite possibilities
Induction hobs heat the base of the pan only. That means you can use any shape or size of pot and move these around freely on the hob's surface as you cook. Your pots and pans just need to cover the respective cross.

You can even place a very long pan or fish kettle across two cooking zones.

Touch, rotate, set
Touch the DirectAccess rotary slider, rotate your finger to the setting required and leave your induction hob to do the rest. Our hobs bring the best ways to control a hob together to save you time.

Seven reasons to choose induction

1
Freedom to use a range of culinary tools.

2
Speed: Induction hobs heat the pan directly and your food immediately.

3
Control: You can adjust the heat precisely, with instant effect.

4
Energy efficiency: You only heat what needs to be heated, the pan.

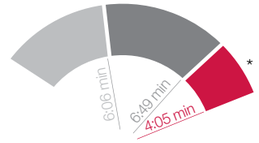
5
Safety: Even when turned on, the cooking zone will only heat up when a pan is placed on it. With a temperature sensor to prevent overheating.

6
Convenience: As the hob remains relatively cool, you can easily wipe away any spills.

7
Style: An induction hob will complement any modern kitchen design.

Boils faster
An induction hob will boil a litre of water in 4:05 minutes, making it the most energy efficient way to cook on a hob.

- Solid hot plate
- Radiant heat
- Induction



As fast as 4:05 minutes

*Electrolux internal test data

Seamless
For a seamless finish to your kitchen, choose the new InfinitePure™ induction hob. When not in use, the hob is a stunning piece of flat glass that complements any modern kitchen, when turned on, the hob illuminates to ensure ease of operation and control

Infinite possibilities

Professional chefs need instant precise heat control. Our InfinitePure™ hob with intuitive DirectAccess rotary sliders, gives you the same level of control in one touch.

Flexible cooking
Freedom of space to cook anywhere you want with induction heating. Simply place the pans on the crosses.

- Automatically adjusts to the shape of pots and pans
- Heats up quickly – no energy is wasted heating empty areas

Bridge function
Gives flexibility to use any shape pan, even oversize pans.

- Use two pans in one zone
- Place larger pans across two cooking zones for a perfect result every time

Induction
The heat you need is generated instantly within the bottom of your pots and pans. Making induction cooking faster.

Quick and accurate
Precise heat control in an instant with the one touch intuitive DirectAccess rotary slider. Adjust and control heat levels quickly, easily and accurately.

80cm Induction Hob

EHD8740FOK

80cm wide Induction PureHob with 4 Infinite zones

For a unique seamlessly integrated cooking surface, the PureHob is only visible when you turn it on.

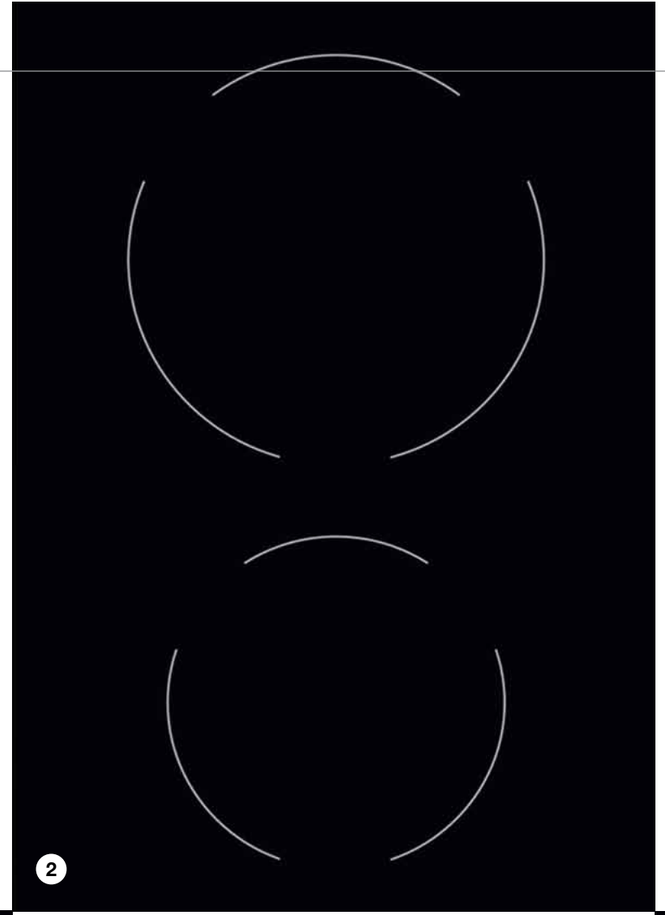
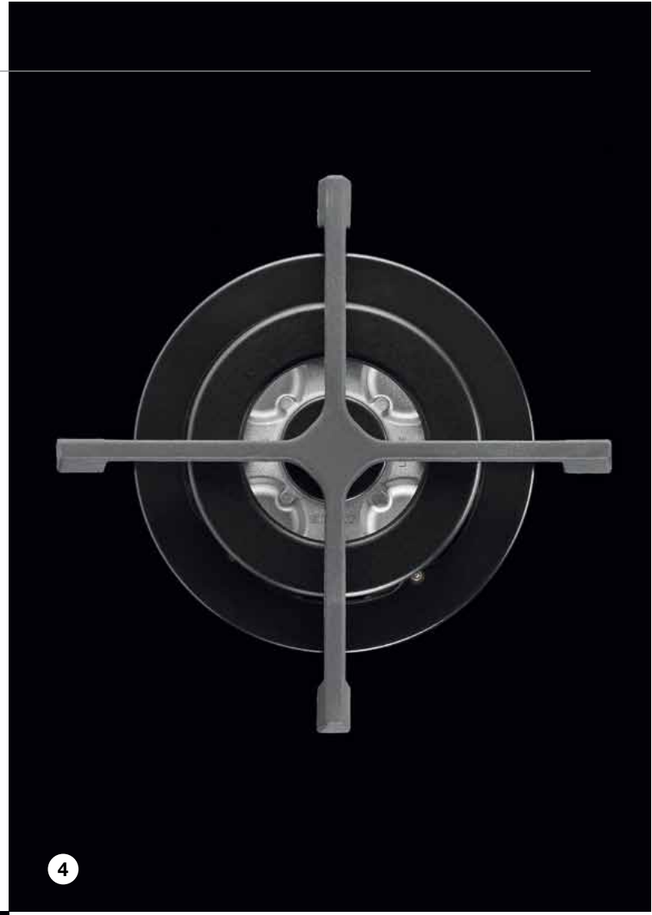
Take your pick

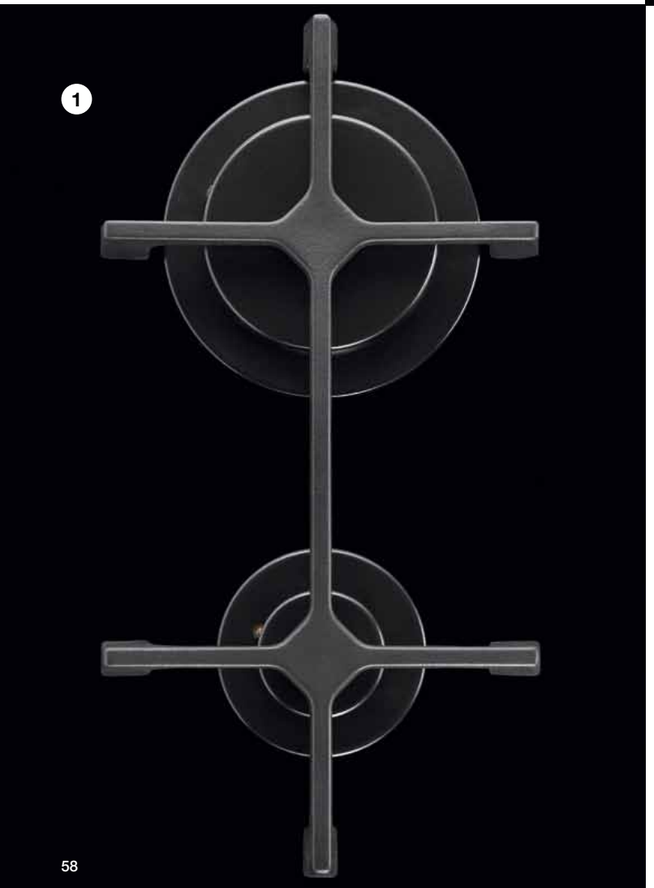
Customised luxury comes to your kitchen with a choice of sleek, modular domino hobs.



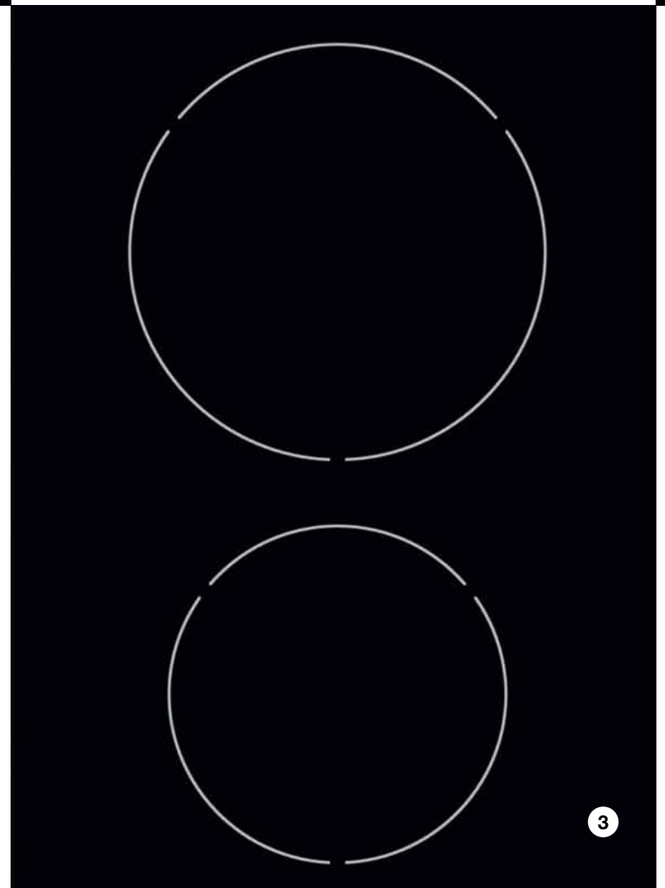
Each arrangement is highly individual, with plenty of opportunity to add a few specialist touches.

The Domino's minimalist design will complete any kitchen style, sitting harmoniously alongside wood, stainless steel, marble or more glass. Simply choose the modules that best suit you.





Made of glass and little else, our Domino collection is breathtaking. You'll notice it's stunningly practical too, allowing you to make your cooking space your own.



1. Gas (Double Ring)
2. Ceramic (Two Zones)
3. Induction (Two Zones)
4. Gas (Wok Burner)

The Professional Connection
Cooking is a highly personal experience. We know chefs adapt their equipment to best fit their art and individuality.
Our Domino Hobs allow you to do the same, exquisitely.

Domino two burner gas hob

Hoods

What's new

Introducing some of the very latest hood features from across our range.

Powerful motor
Freshen up the air in the kitchen quickly. The cooker hoods powerful motor drives it's amazing performance.

Leave it to the indicator

The saturation indicator will let you know when the filter needs replacing. That way your hood is always super effective.

Aligned across our range
Your choice of hood will integrate seamlessly with any models from our Inspiration Range. Our top line models feature our signature flow line for design harmony, together with a sophisticated white LED display.

Whisked away
The innovative design of our extraction system enables our hoods to capture and eliminate strong vapours from cooking. For increased efficiency and reduced maintenance.

Atmospheric effects
The modern halogen lights in our cooker hoods shine brightly over the hob and are more energy efficient than standard bulbs.

Simple slide control

Select the hood's performance speed and the illumination you need.

Freestanding cookers

Worth Knowing

How innovation across our Inspiration Range helps you in the home

Catalytic coating
To help with cleaning, Electrolux cookers have catalytic coating on the top, back and sides. The coating absorbs any grease which is then oxidised when the oven is set to its highest temperature

Touch control

Using the latest in innovation, we give you touch control operation for the oven and hob at your fingertips. The precision temperature control ensures easy operation of the oven and hob with the added benefit of timers for each zone as well as Stop&Go function which is great for unexpected interruptions reducing all zones to a minimum heat until you are ready to start cooking again

Rapid power zones
Our zones on our electric cookers have rapid power zones which heat up in less than 5 seconds, saving time and energy

UltraZone gas oven
This gas oven is great for cooking foods requiring different temperatures as the oven is hotter at the top and cooler at the bottom

UltraFan

Thanks to the specially designed fan, temperatures throughout the oven are even which is great for batch baking and there is no transfer of flavours so sweet and savoury can be cooked at the same time. UltraFan also reduces pre-heating times and achieves shorter cooking times at lower temperatures

Glass lid with auto shut off

Not only does the lid provide a useful splashback, when the lid is closed it gives more worktop space and with auto gas cut off when the lid is being closed there is added safety

Freestanding cooker

EKC607601

Stunning electric freestanding cooker with touch control operation

5 YEAR WARRANTY

Features

Unique touch control for both the hob and oven. With precision temperature control at your fingertips and a stunning appearance, this freestanding cooker will look sleek in your kitchen

This cooker's huge oven capacity gives you the freedom to be truly generous when serving. In fact, you can cook so much at once, that everyone gets a second helping!

- XL fan design for even results wherever you place your dish
- Experiment like a professional chef using this multifunction oven. Select the optimum function for the dish from roasting to baking to grilling to fan cooking
- Ceramic hob with multiple zones which is easy to clean thanks to its completely flat surface
- So dinner is always ready when you want it, this interface with red LED display enables you to select the cooking end-time and duration. It has retractable knobs and push buttons for access to all settings
- Main oven 10% more energy-efficient than an A-class oven, top oven A rated
- Catalytic liners in both ovens - an aid to cleaning

One set of fully extendable telescopic shelf runners suitable for use with our Inspiration Steam ovens.

Cooling

Preserve your food's freshness for days longer with a range that's inspired by professional cooling technology.

Refrigeration

Built-in wine cellar	90
Built-in fridges and freezers	91–101
Built-in fridge-freezers	102–107
Food centre	108
Freestanding cooling	110–115

For an explanation on our icons please refer to the inside back cover.

Refrigeration

What's new

Keep your food as fresh as the professionals with our cooling technology. Here are some highlights from across our cooling range.

2>1

Longer-lasting freshness
Two cooling systems are better than one. FreshPlus uses our TwinTech® cooling technology, inspired by professional refrigeration. Two separate systems serve your fridge and freezer independently. This stops food from drying out in the fridge and prevents any frost build up in the freezer.

LCD

In sight and at your fingertips

Many of our models feature an LED screen on the fridge door, which is intuitive to use.

LED

Ambient LED light
Long lasting and eco-friendly.

Everything in its place
Extend the life of fresh meat and fish with our FreshZone storage area. Switch on HumidityControl to store fresh fruit, vegetables and other delicate foods perfectly.

SHOPPING

Just been shopping?

Select the ShoppingMode to maintain the correct temperature as you add your items.

A+

Save energy; cut bills
Keep food fresh using the smallest possible amount of energy.

ECO

Going away?

Save even more energy with the HolidayMode and EcoMode.

Tastes fresh, smells fresh
Our TasteGuard® purifies the air inside the fridge compartment, filtering unwanted odours in a natural way - with charcoal.

Refrigeration

Worth knowing

How innovation across our Inspiration Range helps you in the home.

Fresh food stays fresh
When stored in our Electrolux TwinTech® FrostFree fridge fruit and vegetables stay fresher for days longer.

Pak choi lasts
5 days longer

Strawberries last
3 days longer

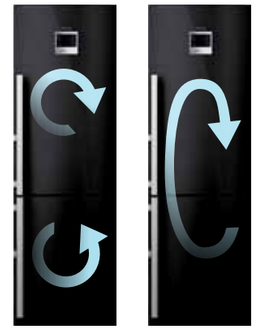
Celery lasts
3 days longer

Kiwi fruit last
3 days longer

Source: Electrolux laboratories

Two cooling systems are better than one
Behind our freshness technology lies TwinTech® FrostFree. Based on professional refrigeration solutions, two separate cooling systems, as well separate air flows, serve your fridge and freezer independently.

This guarantees:
– the right climate in your fridge, preventing food from drying out and losing its freshness
– no frost in the freezer so you never have to defrost again.

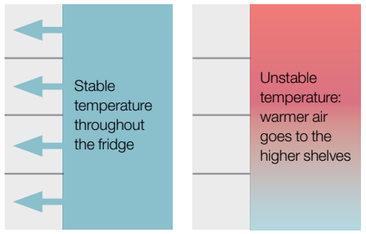


TwinTech® system

Standard system

And with TwinTech®, due to the separate airflows, there's no odour transfer between the fridge and the freezer.

Freedom to store food anywhere
With our FreshPlus with MultiFlow, cool air is gently distributed to every level of the fridge, ensuring the climate on each shelf remains just right for perfect preservation. And while you're busy storing your food, there's no need to rush. MultiFlow makes sure the temperature is quickly corrected as soon as the door is closed. Our FreshPlus fridge, combining both TwinTech® FrostFree and MultiFlow, is the best possible buy if you're looking for market-fresh ingredients for every meal.



FreshPlus with MultiFlow system

Standard system

Retain your vitamins
Tests proved that the content of Vitamin C doesn't diminish in strawberries stored in FreshPlus, even after 10 days.*

100%
vitamin C
over ten days

Only 8% strawberries weight loss in Electrolux

Up to 23% with competitors

*Compared to Full No Frost fridges/freezers. Test performed by independent SGS Institut Fresenius Gmbh, Germany. Detailed test results can be requested from Electrolux customer service.

No. 1 in freshness technology*

Built-in fridge

ERW3313AOX

Large capacity in-column wine cellar

YEAR 2 WARRANTY

Features

With this stylish wine cellar, you can rest assured that your bottles of wine are stored at your exact required temperature. As a result, you can confidently uncork any bottle, be it red or perfectly chilled white, and delight your guests or family

ERG2105FOW

Our most energy efficient A++ rated in-column fridge with 4-star freezer compartment

2 YEAR WARRANTY

Features

With its A++ energy efficiency rating, this energy-saving hero saves 25% more on energy costs than A+-class models – and that's while still delivering a top performance

Integrated into your fridge, the 4-star compartment is a great place for frozen food that you need regularly. It chills down to a safe -18°C

As every professional chef will tell you, using fresh ingredients is one of the key secrets to fabulous cooking. That's why this refrigerator has a FreshZone, a special low-temperature compartment that's 15% colder than the rest of the fridge. Store meat and fish here, and it will stay naturally fresh for twice as long

- Ensure that you have precise temperature and function control with the LCD Touch Control electronic display
- ShoppingFunction quickly cools down your fridge in preparation to quickly and safely cool down your weekly shopping
- There's no need to worry about the temperature inside rising too high, as the TempAlert will let you know if it happens with a warning light and alarm
- Check out the contents of your fridge using premium LED lighting technology. This energy-saving lighting system gives you excellent visibility
- The full width covered dairy compartment is ideal for butter and cheese as these foods can then be served straight from the fridge
- Keep your vegetables fresh and crisp until you need them in our 2 half width salad drawers
- Achieve flexible food storage with the inclusion of 2 full width and 2 half depth shelves
- The innovative half-width shelf in the door can slide from left to right, giving you more options when storing your food

Cleaning

Just put it all in and relax with one of our flexible dishwashers. They're made for real life.

Our RealLife™ dishwasher gives you every opportunity to explore your culinary repertoire, without having to worry about the aftermath. Regardless of your dish sizes, the XXL tub with movable baskets offers you the most flexible loading space.

Lazy Sunday afternoons
Weekend lunch is a time to catch up or stretch out after the hectic week. It's a good job that RealLife™ also relishes the toughest of challenges, such as cleaning up after a roast. Even the most tightly packed loads are left gleaming in every corner, thanks to the double-rotation FlexiSpray™ arm.

For an explanation on our icons please refer to the inside back cover.

Semi-integrated 118
Fully-integrated 119–121
Slimline 122–123

Dishwashers

What's new

However challenging the task, let an Electrolux dishwasher clean up after you. Introducing a handful of highlights from across our Inspiration range.

X2

Two loads in one go
Wash two types of load at the same time. For example, place glasses in the top basket and stack pots and pans in the bottom for spakling results.

Ready in half the time
Use the TimeSaver option which makes some clever adjustments, you can reduce the programme's time cycle by up to 50% - while enjoying the same comparable performance.

TimeBeam®

Our TimeBeam® projects a timer onto the floor, letting you know exactly when the cycle will finish.

Leave it all to your dishwasher
For superior wash performance every time, use our automatic programme. Simply select AutoFlex and the programme analyses the loading with laser precision sensors and determines the best temperature and washing time.

Fast flexible loading
Raise or lower the RealLife™ baskets - making stacking effortless. With SoftSpikes® for glass care and adjustable trays.

Your cycles in seconds

With MyFavourite you can save your most liked settings and turn your fav programme settings on.

Quick 60°

Delivers an A-class wash performance for a half load in just 30 mins.

30´

Smaller bills
Great water and energy efficiency. Plus with AutoOff, the machine switches itself off automatically at the end of the cycle (rather than using energy on standby mode).

Quiet performance
Just louder than a whisper; quieter than normal conversation.

Dishwashers

Worth knowing

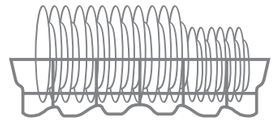
What innovation across our Inspiration Range helps you in the home.

Standard spray arm coverage.

RealLife™ FlexiSpray coverage.

No job too tough
Our double-rotation FlexiSpray arm makes sure every load is cleaned to perfection, in every corner - without the need to pre-rinse or re-wash items. It even relishes the challenge of washing up after a Sunday roast.

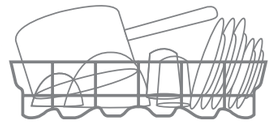
Put it all in
RealLife™ is tested and certified to always give you best results, even under tough, daily conditions*. Whatever the load type this is probably the most flexible dishwasher ever made.



Standard load

We all know...

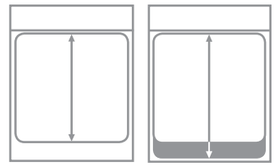
98%
of loads look more like this



RealLife™ load

*With this certification, the independent German test institute LGA confirms that models from the RealLife™ range are optimized for better loading and cleaning results under daily use conditions.

Greater flexibility
RealLife™ baskets are extra spacious so you can fit in big plates, tall glasses and large pots and pans. Thanks to an extra large tub inside, without increasing the outside dimensions, your RealLife dishwasher can fit anything you want with ease.



Standard space

RealLife™ XXL space

Never guess the best programme
AutoFlex will automatically select the optimum programme for each load, delivering superior wash performance every time.

Automatic programmes run from 45°C to 70°C and water consumption can be as little as 7 litres. All at a push of a button.

- ✔ Sensors determine with laser precision the best temperature and washing time.
- ✔ Smart sensors measure progress throughout for ultimate efficiency.

Did you know... ?
Contrary to popular opinion, on average, dishwashers use less water and energy than handwashing.

■ Dishwashing
■ Handwashing

Water consumption

10 litres vs. 103 litres

Our full sized, powerful cyclonic vacuum cleaner which never loses suction* Ideal for cleaning multiple floor types and delicate surfaces.

Suitable for Pets
These models will have specific features for pet hair such as a turbo nozzle.

AirExcel ™
Our full sized, powerful cyclonic vacuum cleaner which never loses suction - Ideal for larger homes.

Air Excel Lite™
Our most compact, lightweight upright vacuum cleaner which never loses suction - Ideal for smaller homes.

*Multi-Cyclonic technology***
Maintains suction power and separates larger debris from fine dust, resulting in less maintenance.

Stair clean
These models will have specific features to clean stairs easily, such as long power cords and stretch hoses.

HEPA Filter with Arm & Hammer® anti-odour system
The HEPA filtration system is combined with an Arm and Hammer® anti odour system to capture pollen and other allergens, while neutralising pet odour.

* Electrolux proves no loss of suction through IEC Test 60312, Section 2.9, 4th Edition. Test results within accepted variability tolerance of 5%. Machine must be maintained as instructed in the user guide.

** When compared to non-cyclonic vacuums having dust cup filters.

Air Excel™ Lite Pet

ZAS5200A

Air Excel™ Lite Pet is our most compact and lightweight bagless cleaner which never loses suction*

Features

- Multi cyclonic technology** separates dirt and dust from the air path so your filters don't get clogged. This ensures powerful constant suction
- The HEPA filtration system is combined with an Arm and Hammer® anti odour system to capture pollen, allergens and smells
- Airflow can be directed to either the stretch hose or the floor nozzle for more targeted suction
- 2 litre dust capacity
- Edge to edge cleaning
- 7m power cord
- Floor type selector

Technical info

Dimensions (mm)
1120 (H) x 305 (W) x 300 (D) 4.9kg

Consumables and accessories

- 5 to 1 stretch hose (2.4m)
- Plastic extension tubes including long crevice nozzle
- Turbo nozzle

Belt: ZE090
HEPA filter: HF35

Air Excel™ Lite Reach

ZAS5201A

Air Excel™ Lite reach is our most compact and lightweight bagless cleaner which never loses suction*. Comes with extra long power cord and stair hose

Features

- Multi cyclonic technology** separates dirt and dust from the air path so your filters don't get clogged. This ensures powerful constant suction
- The HEPA filtration system is combined with an Arm and Hammer® anti odour system to capture pollen, allergens and smells
- Airflow can be directed to either the stretch hose or the floor nozzle for more targeted suction
- 2 litre dust capacity
- Edge to edge cleaning
- 10m power cord
- Floor type selector

Technical info

Dimensions (mm)
1120 (H) x 305 (W) x 300 (D) 5.3kg

Consumables and accessories

- 5 to 1 stretch hose (2.4m)
- Plastic extension tubes including long crevice nozzle
- Turbo nozzle

Belt: ZE090
HEPA filter: HF35

* Electrolux proves no loss of suction through IEC Test 60312, Section 2.9, 4th Edition. Test results within accepted variability tolerance of 5%. Machine must be maintained as instructed in the user guide.

** When compared to non-cyclonic vacuums having dust cup filters.

Air Excel™ Stair

Z5401AZ

Air Excel™ Stair is our full sized bagless cleaner which never loses suction*. Comes with additional stretch stair hose

Features

- Multi cyclonic technology** separates dirt and dust from the air path so your filters don't get clogged. This ensures powerful constant suction
- The HEPA filtration system is combined with an Arm and Hammer® anti odour system to capture pollen, allergens and smells
- 2.5 litre dust capacity
- Edge to edge cleaning
- 9m power cord
- Floor type selector

Technical info

Dimensions (mm)
1100 (H) x 325 (W) x 310 (D) 10.1kg

Consumables and accessories

- 3 to 1 stretch hose (2.5m)
- Additional stair hose
- Plastic extension tubes including long crevice nozzle
- Riser Visor™ turbo nozzle

Belt: ZE090

Let us take care of the future

CUSTOMER CARE TELEPHONE:
08445 613 613 - Major appliances
08445 614 614 - Floorcare

Once you've bought an Electrolux appliance you're safe in the knowledge that in the unlikely event of a fault occurring you can rely on a commitment to look after your appliance throughout its working life. Our network of fully trained service engineers are available nationwide and our complete care service is one of the most extensive and reliable available.

SERVICE FORCE
Electrolux

www.ariel-info.com

Only Finish detergent products are recommended for use in the Electrolux range of dishwashers, for exceptional cleaning performance.

12 months parts & labour guarantee.*
In the unlikely event of any repairs being required in the first year, we will carry them out free of charge. In addition, any repairs carried out after the guarantee period are covered by their own 12 months guarantee.

*Guaranteed conditions provided on request.

Rapid service
If you call us out under the 12 months guarantee, we endeavour to fix the appliance within seven working days of our first call.

Local service nationwide*
Backed by the extensive range of spare parts held by our central warehouse, the Service Force Network will endeavour to repair your product in your home within 72 hours of receipt of the original call.**

*NA floorcare: You may be required to take your floorcare product to a local service agent for repair.
**Excludes Saturdays, Sundays and Bank Holidays. and may not be available in rural or outlying areas.

Service by appointment
To allow you to plan your day we can offer an appointment within a 3 hour time period, when the call is booked two days in advance.* We can also provide service outside of office hours and Saturday mornings**

* Please note. The service pledge does not apply to the Republic of Ireland or floorcare products.
** A small extra charge is payable for this service.

Service Force network

Marketing Policy: The policy of Electrolux Major Appliances is one of continued improvement. We therefore reserve the right to alter or amend product ranges, specifications and dimensions without notice. All specifications/dimensions including installation dimensions should be checked with the appropriate instruction booklet before use or installation. If in doubt, contact your local Electrolux stockist who regularly receives up-to-date product information from our marketing department. E and O.E

Behind the Inspiration Range

from Electrolux lies nearly a century of building professional kitchens and laundries.

1 YEAR WARRANTY — All Electrolux Inspiration built in and freestanding appliances come with a free 1year parts and labour guarantee as standard.

2 YEAR WARRANTY — The majority of our Electrolux Inspiration range come with a free 2-year parts and labour guarantee.

5 YEAR WARRANTY — We also have a selection of freestanding products that come with a free 5-year parts and labour guarantee.

Keep a look out for the 2 and 5 year guarantee icons beside each product.

Cooking, cooling, cleaning and washing.
All covered, beautifully.
